Course Objectives: The primary objective of dangerous goods training is safety. A trained person would be in a better position to appreciate the risks involved in the carriage of dangerous goods by air and deal with them in accordance with the laid down processes and procedures, apply the IATA Dangerous Goods Regulations correctly through understanding the legal aspects involved and apply general emergency procedures.

Course Structure: The course shall be conducted based on the latest edition of ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air, IATA Training Workbooks, Civil aviation Requirements, Aircraft Rules and Acts issued by DGCA.

Methodology: Instruction methodology will cover lectures, case studies, group discussions, demonstrations; action-oriented learning exercises, assignments and tests etc. State of the art audio visual aids, including multimedia presentation will also be used during the course. High standard of instruction and examination is maintained.

S. No.	Category	Target Population
1.	Cat-1	Shippers and persons undertaking the responsibilities of shippers', including operator's staff acting as shippers, operator's staff preparing Dangerous Goods as Company Materials (COMAT)
